Continuation Sheet (PTOL-303) 10/038,994

Continuation of 2. NOTE: Amdmt to Spec, para. 33 "in particular, only obliquely" and clms "only obliquely is "New Matter"; Figure 1 is insuffient to support the new recitation as such figures are schematics; for instance in Van Den Bussen, it cannot be determined if inlets 12' direct fluid directly radially or also direct fluid obliquely, since they are shown somewhat offset from center. The claiming of "only obliquely..." would also constitute new issues, since combinations of radially and obliquely would be excluded.
